ABOUT

Motivation

From an early age, Gökay Designer & Artist realized that designing was her calling. This designer puts her soul and professionalism into each new project, with an intense passion for all, her designs reflected by her curiously exceptional imagination and experience.

For a better idea of this designer's style and capabilities, please have a look at her portfolio, past works. Or reading on her experiences.

Work

Despite the course of Economics, Marmara University - Istanbul, her career is visual designer, the field of

art. She has been working on graphic & web designing for over fifteen years.

She is an autodidact. Along with designing passion and curiosity, this is her way of life.

And also studying economics has educated her, primary bases of public relations, marketing strategies, customer relations, organization, management and even human resources. This provides an opportunity to focus on primal needs, necessities from the Client's window, helps interaction with designing and defines what and how "the voice" should be among the noise pollution when servicing.

And having this education when being an employee on designing position in such a company, obtains deeply perception of policies, system organization that provides immediate blending in as a teammate and representative, innovative part of the company.

Life

She loves riding her motorcycle, listening to music, crafting, reading, swimming, professional walking, does amateur yoga and face yoga, design-customize recipes and watching movies.

When it comes to music, she describes herself as a "Stainless Metalist".

Among her hobbies, favourites are learning how to play "the guitar",

how to speak Spanish and how to become a skilled martial artist. And also dreaming about getting a pilot license.

She has two four-legged children who are known as cats and classified as kidgets.

Gökay TIBIK lived in Istanbul and worked for stained glass factory and some advertisement agencies for about fifteen years, now temporarily she is in Adana Türkiye. She carries out her works, freelance.

Destination

And now SCULPTURES are calling the designer & artist. Her new passion is carrying out her imagination to another dimension of life, one shot of souls in any hue of life among the cultures, special places, friends and societies.

She is searching and gathering pieces of information about fine art schools for studying her art and work out of Türkiye.
